GAZA EMERGENCY RESPONSE

GAZA EMERGENCY RESPONSE

OVERVIEW

Despite announcements of a ceasefire, the humanitarian situation in Gaza remains catastrophic and, in many respects, conditions have deteriorated further.

The scale of the crisis remains staggering, with women and children among the most vulnerable. **More than 40,000 children have been orphaned, while nearly one million children have lost access to education, been displaced from their homes, and are in urgent need of mental health and psychosocial support services.**

Essential services have largely collapsed, **healthcare and education systems are in ruins, and families continue to face trauma, hunger, loss, and prolonged uncertainty.**

Paradoxically, **delivering aid has become even more challenging since the ceasefire, as severe access restrictions and logistical barriers have forced humanitarian organisations, including Islamic Relief, to temporarily suspend or scale back initiatives that were previously operational.**

Yet, despite these immense challenges, **Islamic Relief remains on the ground and steadfast in its commitment to the people of Gaza, continuing to deliver lifesaving assistance and essential support to vulnerable families whenever possible.**

GAZA EMERGENCY RESPONSE

Over the past month, our teams have delivered the following:

EDUCATION & CHILD WELLBEING

PSYCHOSOCIAL SUPPORT TO
